

{multithumb}

Quivis now runs on Joomla. Not everything on the old website is repeated here. Clicking Quivis anywhere on this website will return you to this page. Most of the images, e.g. the one at right, can be enlarged by clicking. The exceptions are the random images at the head of this and similar pages. If in doubt, try!

Some pages, such as Dum's Journal, can only be seen by registered users when logged in. To add or edit content you must also log in.

Any problems [email me.](#)

If you were looking for DESIGNLINK but couldn't find what you were looking for, that's because Designlink is a shadow of its former self. What was Designlink is now QUIVIS and it's all mine!
